Asteroid Rules

Wherever "**Asteroid Rules**" are in effect, your starships there are continually subject to being hit by asteroids. During each of your control phases, for each such starship:

- Opponent draws one asteroid destiny.
- Add 1 for each additional sector at that system that has "**Asteroid Rules**" in effect.
- If total asteroid destiny > armor or maneuver, the starship is lost.
- If the card drawn for asteroid destiny is itself an asteroid sector, the starship is lost, no matter how high its armor or maneuver.
